

TENNESSEE GENERAL ASSEMBLY
FISCAL REVIEW COMMITTEE

FISCAL NOTE

HB 383 - SB 488

February 16, 2019

SUMMARY OF BILL: Authorizes Local Education Agencies (LEAs) to adopt ACT, ACT Aspire, or SAT suites of standardized assessments as an approved testing alternative in math and English language arts for grades nine through twelve. Requires students in grade eleven taking such tests to also take the examination required in Tenn. Code Ann. § 49-6-6001. Requires LEAs to submit to the Department of Education (DOE) notice before switching to an approved testing alternative as well as submitting notice to the parents or guardians of the requisite students.

ESTIMATED FISCAL IMPACT:

Increase State Expenditures – \$66,700

Other Fiscal Impact – Recurring federal funds for K-12 education may be jeopardized as a result of this legislation. The precise amount, if any, cannot be reasonably determined. However, the FY18-19 Governor’s recommended budget document, on page B-81, identified \$1,137,319,100 in federal funding for K-12 schools.

Assumptions:

- Students that are juniors in high school currently receive a voucher from the state to take the ACT as the required 11th grade assessment pursuant to Tenn. Code Ann. § 49-6-6001(b). As such, the cost estimate for this legislation is based on the use of the ACT Aspire suite of standardized tests.
- The state will not be required to purchase additional standardized tests.
- According to DOE, the combined variable cost associated with administering any TCAP, TNReady, or End of Course (EOC) test is approximately \$1.79 per student.
- The minimum cost associated with purchasing the online ACT Aspire test is approximately \$20 per student.
- The cost for the Preliminary Scholastic Aptitude Test (PSAT) is \$15 per student.
- Given the cost difference between the two, it would be cost prohibitive for an LEA to elect to administer the ACT Aspire test in lieu of administering TCAP, TNReady, and EOC tests. As a result, it is estimated that few, if any, would elect to do so. For the purposes of this fiscal note, it is assumed that LEAs will make the most cost effective

decision. Therefore, any permissive change in local expenditures is estimated to be not significant.

- DOE will still be required to prepare for the event an LEA chooses to opt into utilizing the ACT Aspire tests. This preparation would include performing certain activities at the state level to help administer two different suites of standardized tests each year. These duties include, but are not limited to, helping to prepare a test platform, setting testing windows, preparing for two annual regional meetings with LEAs that will use the ACT Aspire suite of tests each year; and communicating with the ACT Aspire test manufacturer. Given this, DOE will require one additional employee; regardless of how many LEAs opt into using ACT Aspire suite of tests and/or the SAT/PSAT.
- The recurring increase in state expenditures for one Education Consultant 2 at a minimum salary point is estimated to be \$66,662 [(\$51,540 salary + \$15,122 benefits)].
- Title 1 part A of the Every Student Succeeds Act (ESSA) requires measurement of state standards.
- The ACT Aspire suite is not aligned with state standards; and would therefore be out of compliance with federal ESSA requirements, resulting in a possible loss of federal funding at the discretion of the U.S. Department of Education (USDOE).
- The amount of federal funding that could be in jeopardy is unknown and dependent upon action of USDOE; however, the FY18-19 Governor's recommended budget document identified \$1,137,319,100 in federal funds to K-12 schools, all or any portion thereof, could be jeopardized if Tennessee becomes non-compliant with the ESSA assessment requirements.

CERTIFICATION:

The information contained herein is true and correct to the best of my knowledge.
